**Single Point Locking Handle for Aluminium
Casement Windows – McCoy Bullet 20**

Single Point Locking Handle for Aluminium Casement Windows – McCoy Bullet 20

Highlights:

- A single point Locking Handle for Outward and Inward opening Aluminium Casement Windows.
- Body made from ZAMAK, which is an alloy of Zinc, Aluminium, Magnesium and Copper, Zinc being the Base Metal. It is characterized by high Strength and Hardness and good Bearing properties.
- An aesthetically pleasing curved ZAMAK Body with a Thumb depression for enhanced looks and ergonomics.
- Inward curling of the Handle lever gives for easy gripping and ease of use with less effort.
- Available in White or Black Powder Coating finish.
- Sleekly designed oval base with a width of 22 mm.
- The Length Handle Lever is 117 mm.
- Total Height of Handle is 51 mm.
- Coating thickness of 90 Microns.
- Hook, Hook Packers, Handle Packers, Screw Caps for Handle and Hook, respectively, and 6 numbers Fixing Screws come as part of the standard packing.
- Hook Packers of thicknesses 1mm., 2mm., 3mm. and 4mm. are available with each packing.
- Handle Packers of varying thicknesses available in standard packing.
- 24x7 Technical Support.
- Guaranteed for 10 Years.
- Packing size 100 per box.

Remark: The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. In every case it is recommended to carry out preliminary experiments.
